Tips on Better Communications

for BellSouth Customers

Life's complicated.

Make it simple.

Life is complicated. From business meetings to little league, life is full of details that demand your attention.

Fortunately, BellSouth thinks there are some things in life that should be simple — like communication services. Which is why BellSouth is now offering the Complete Choice plan, a simple plan to give you absolutely everything you want for one flat price.

The Complete Choice™ plan gives you local phone service PLUS your choice of up to 20 calling features

PLUS voice mail — all for just \$32.95* a month. And all features can be changed, and others added, at any time without additional charges.

SPECIAL OFFER:

Order the Complete Choice plan featuring MemoryCall Voice Mail Service now and BellSouth will waive the connection charge. (A \$17 value.) Just call 557-2513. A BellSouth representative will explain how each feature works and help you choose the right combination. Offer ends December 5, 1997.

You can start with the five most popular features: Caller ID, Call Waiting Deluxe, Flexible Call Forwarding, Call Return, Three-way Calling plus MemoryCall Voice Mail Service. For \$32.95 a month, this is probably the best savings plan you'll find. And it's a great way to simplify your life.

*For additional information see back page.

MemoryCall Personal Voice Mailboxes

When you bought your answering machine, you didn't know you were also volunteering to be your family's communications manager listening to all the calls, taking notes, and delivering messages.

Now you can divide up the incoming calls so each person in your family can handle his or her own messages, and you can get to yours faster.

With the MemoryCall Voice Mail Service, BellSouth offers you a convenient feature called MemoryCall Personal Voice Mailbox.

This convenient service provides you with up to four mailboxes. You can set each mailbox up anyway you choose to fit your lifestyle. For example, you can separate business calls from personal calls, or give members of your family their own personal mailbox space.

MemoryCall Personal Voice Mailbox keeps each mailbox secure so that only the person who has that mailbox can listen to or delete messages. And to

assure privacy, each mailbox has its own password.

You wouldn't expect all your messages at work to be dumped into one voice mailbox, so why dump them together at home? Call your BellSouth representative at 557-2513 to see if MemoryCall Personal Voice Mailbox is right for your home.

SPECIAL OFFER:

Check your MemoryCall Voice Mail at no charge from any BellSouth Mobility phone through Dec. 5, 1997.
